Mitch White Workshops at ACHRA – June 3-6th, 2023

Gamekeepers Retrievers workshops are considered to be among the best of their kind. Mitch White is one of those rare dog trainers who is just as good with people as he is with the dogs he trains. Below you will find a short description of the workshops being offered. They are very popular because we can customize these workshops to the group of dogs attending.

Transition Workshop:

Transitioning your dog is being presented to help handlers succeed in progressing their dog to the next training level. The focus of this workshop will be analyzing each individual dog's performance, determining its weakness and developing a plan to move forward in its training. Participants will work on problem solving skills, drills & set ups tailored to each dogs needs. Mitch will instruct each handler on how to identify their dogs' areas of weakness & coach them on developing a plan to address those areas.

Advanced Workshop:

Suitable for dogs in advanced training such as dog/handler teams that have completed their transition training and/or currently ready to run successfully (CKC/AKC) MH/Qual or UKC (finished). Join us for 2 full days of progressive and motivational advanced training. The workshop will also focus on problem solving for dog & handler teams who have ongoing training issues at the advanced level.

Auditors:

Auditors will benefit greatly from the workshops, due to the varied issues that will be discussed, and the insight Mitch will provide to each unique situation. Auditors & handlers alike will observe and be involved in discussions as each dog presents different behaviors. These methods will allow attendees to learn how to analyze in the moment & read dogs behaviors.

Topics of training will include but not limited to:

- Identifying weaknesses & prescribing exercises for them.
- Learn to pinpoint issues on the fly and adjust your approach to an exercise to help the dogs progress.
- Reading a scenario to analyze how your individual dog is likely to react.
- Build a training plan for progress.
